BLOCKCHAIN

Code2Create

Description

Use blockchain to demonstrate the power of decentralisation.

Prompts

- How can blockchain become accessible to more people?
- How can modern finance take inspiration from DeFi?
- Building an application that promotes anonymity of a user across different platforms

Example Statement:

NFTs as proof of ownership

9Non-fungible tokens) in real world use cases. Like properly ownership, transfer of rights, etc.Devise and implement a use case for NFTs

Disclaimer:

The Problem Statements are meant to be a Guide, you are free to innovate however you want as long as it sticks to the track.
